

Ministry of Water and Irrigation

Vision

To ensure water resources availability and accessibility by all.

Mission

To contribute to national development by promoting and supporting integrated water resource management to enhance water availability and accessibility.

Strategic objectives

- Accelerating the implementation of water sector reforms;
- Improving the sustainable management of water resources;
- Improving the provision of water and sewerage services;
- Improving utilization of land through irrigation and land reclamation;
- Strengthening institutions in the Ministry and the water sector;
- Mobilizing resources and promoting efficiency in their utilization;
- Improving the management and access to water resources information.
